

**Acorn**

**Name**

Name : Acorn

French name : Gland de chêne

**Source**

Organe : fruit

Sample Origin : tree, Grenoble

**Morphology**

Size <10 µm & 10-50 µm

Shape : elongated

**Structure**

Allomorph : C

**Composition**

Waxy : no

**References**

**Image(s)**

Optical micrograph (OM)

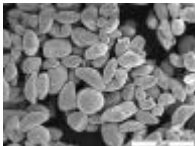

**Starch presentation**
